IF A NEIGHBOR BEGS

THE PRIVILEGE OF LOCKING YOUR FRONT STORE ENTRANCE

For 5 minutes during business hours would you say, "Why certainly, go ahead?" Of course not. But you are doing something quite as much against your interests when you allow the use of your telephone by neighbors. There can not be two conversations over a telephone at the same time. If your telephone is in use, your customers cannot give you orders and they call some one else. Did you ever think of it in that light before?
